

IWRM1: Transboundary Data Sharing for Integrated Water Resources Management

Organized by UNESCO/JICE

Meeting room # D4 Arn-chan, 18 May 2013 at 13:30-16:30 hrs

(1) The participant agreed that there is a need for transboundary data sharing based on mutual livelihood and life security basis.

(2) The academia needs to play a role in enhancing understanding of the value of data sharing for life saving and humanitarian purpose.

(3) The workshop developed the slogan "Transboundary data sharing can save lives."
